

ประกาศ

เรื่อง การจัดหมวดหมู่เนื้อหาสำหรับการอ่านเตรียมตัวสอบ Fundamental Surgery module 5 เนื่องจากเนื้อหาที่มีจำนวนมาก ทางคณะกรรมการคัลยศาสตร์พื้นฐาน จึงได้จัดหมวดหมู่เนื้อหาบทความ module 5 ออกเป็น 3 กลุ่ม (3 tiers)

Tiers 1-2 หมายถึงเนื้อหาที่ต้องรู้ และควรรู้ ออกข้อสอบประมาณ 80%

Tier 3 หมายถึงเนื้อหาที่นารู้ ออกข้อสอบประมาณ 20%

เนื้อหาแบ่งตาม tier แสดงในตาราง

Tier 1 (14 topics)			
5.1.1.1 physiologic response to injury	5.1.2.8.1 Initial management of burn	5.2.5.1 Acute urinary retention	5.3.12 Common surgical diseases of skin and soft tissue
5.1.1.5 Damage control surgery	5.2.2.1 Upper airway obstruction	5.2.5.3 Acute urinary tract infection	5.3.13.3 Approach to lateral neck mass (Approach to neck mass)
5.1.1.8 Imaging studies of trauma patient	5.2.3.1 Acute abdomen	5.2.9 Emergency in skin and soft tissue	
5.1.1.2.1 Brain injury	5.2.3.4 Gastrointestinal obstruction	5.3.10 Common surgical diseases of breast	

Tier 2 topics (44 topics)			
5.1.1.4 Shock in trauma	5.1.2.6 Trauma of the spine and spinal cord	5.2.4.2 Acute cholecystitis	5.3.3.7 Common diseases of large intestine
5.1.1.10 Trauma scoring system	5.1.2.7.1 General principles of peripheral vascular injuries	5.2.4.3 Ascending cholangitis	5.3.3.8 Common diseases of anus and rectum
5.1.2.1.2 Maxillofacial injury	5.1.2.7.5 Compartment syndrome	5.2.4.5 Acute pancreatitis	5.3.4.2 Tumors in hepatobiliary and pancreatic system
5.1.2.2 Trauma in neck region (Neck injury)	5.1.2.8.4 Chemical burn	5.2.5.2 Massive hematuria	5.3.4.3 Obstructive jaundice
5.1.2.3.1 Thoracic aorta, thoracic great vessels and cardiac injury	5.2.1.8 Ruptured abdominal aortic aneurysm	5.2.6.1 Torsion of testis	5.3.5.1 Stones in urinary system
5.1.2.3.2 Chest wall and lung	5.2.2.2 Massive hemoptysis	5.2.7.1 Intracerebral hemorrhage	5.3.7.1 Common diseases of central nervous system
5.1.2.4.1 Indication for laparotomy	5.2.3.2 Peritonitis	5.2.10 Acute hand infection	5.3.7.2 Common diseases of peripheral nervous system
5.1.2.4.2 Non operative management of abdominal injuries	5.2.3.3 Esophageal perforation	5.3.1.6 Chronic venous insufficiency	5.3.9.3.2 Tumors of adrenal gland
5.1.2.4.6 Abdominal vascular injury	5.2.3.5 Gastrointestinal perforation	5.3.3.4 Common diseases of esophagus	5.3.14.1 Pneumothorax
5.1.2.4.8 Genitourinary system	5.2.3.6 Gastrointestinal hemorrhage (Upper and lower)	5.3.3.5 Common diseases of stomach	5.3.16.1 Limb swelling

5.1.2.5 Pelvic fracture	5.2.4.1 Liver abscess	5.3.3.6 Common diseases of small intestine	5.3.16.3 Diabetic foot
-------------------------	-----------------------	--	------------------------

Tier 3 (48 topics)			
5.1.1.3 Initial assessment and resuscitation	5.2.1.5 Limb ischemia and limb compartment syndrome	5.3.2.1 Lung infection	5.3.8.2 Tumors of musculoskeletal system
5.1.1.6 Trauma coagulopathy and transfusion	5.2.1.7 Venous thromboembolism	5.3.2.2 Lung tumor	5.3.8.3 Degenerative diseases of musculoskeletal system
5.1.1.9 Venous thromboembolism	5.2.2.3 Empyema thoracis	5.3.3.1 Common diseases of oral cavity	5.3.9.4.1 Tumors of pituitary gland
5.1.1.12 Mass casualty	5.2.6.2 Twisted ovarian cyst	5.3.3.2 Common diseases of salivary gland	5.3.13.1 Congenital diseases in head and neck region
5.1.2.4.3 Solid organs injury	5.2.6.3 Tubo-ovarian abscess	5.3.4.1 Stones in hepatobiliary and pancreatic system	5.3.13.2 Deep neck infection (Inflammatory diseases in head and neck region)
5.1.2.4.4 Hollow viscus injury	5.2.6.4 Ectopic pregnancy	5.3.5.2 Tumors in urinary system	5.3.14.2 Pleural effusion
5.1.2.4.5 Diaphragm injury	5.2.7.2 Increased intracranial pressure	5.3.5.4 Radiation injury of urinary system	5.3.14.4 Mediastinal mass
5.1.2.4.7 Abdominal compartment syndrome	5.2.8 Acute osteomyelitis	5.3.5.5 Fistula of urinary system	5.3.14.5 Congenital diaphragmatic hernia
5.1.2.7.2 Vascular injury of the upper extremities	5.3.1.1 Common congenital heart disease	5.3.5.6.1 Neurogenic bladder	5.3.14.6 Hiatal hernia
5.1.2.7.3 Vascular injury of the lower extremities	5.3.1.2 Valvular heart disease	5.3.5.6.2 Urinary incontinence	5.3.15.1 Abdominal wall hernia
5.2.1.3 Ruptured peripheral artery aneurysm.	5.3.1.4 Aneurysm of peripheral artery	5.3.7.3 Common diseases of autonomic nervous system	5.3.15.2 Groin hernia
5.2.1.4 Aortic dissection	5.3.1.5 Arteriovenous fistula and malformation	5.3.8.1 Inflammatory diseases of musculoskeletal system	5.3.16.2 Chronic ulcer of lower extremity (Chronic leg ulcer)
